

PACIFIC REGION INFECTIOUS DISEASE ASSOCIATION INC.

PRIDA Journal Club 2022

PRIDA is again this year facilitating a fortnightly journal club focused on microbiology and infectious diseases.

These sessions run via zoom every second Friday and are used to bring together helpful discussion on interesting health literature relevant to LMIC locations.

With presenters from many different countries, any range of medical topics are encouraged to be presented from the relevant peer reviewed literature.

The course facilitators assist presenters to select a paper for review and are able to provide practical assistance prior to their session via zoom.

Access is free and there is no obligation to present or comment, however all are encouraged to participate and ask questions. The sessions are NOT recorded.

Held over Zoom, the 1 hour meetings are coordinated by WhatsApp messages, and a regular email reminder with the link provided.

First session will be on the 1st March 2022; fortnightly after that.

These are commencement times for each country:

- 7.15am: New Delhi, India
- 7.30am: Kathmandu, Nepal
- 9am: Phnom Penh, Cambodia
- 11am: Dili, Timor-Leste
- 12pm: Port Moresby, PNG
- 1pm: Honiara, Solomon Islands
- 1pm: Port Vila, Vanuatu
- 2pm: Suva, Fiji
- 3pm: West Samoa Time, WST
